## Commercial | RAC Outdoor

Simple to install and delivers optimal comfort, energy savings and environmental protection.

Most commercial businesses need to balance performance with cost. Samsung's CAC Single air conditioning systems let you create the perfect working conditions for everyone, while

also saving money. As well as being environmentally-friendly you can also utilize a range of indoor units to suit the particular needs of key areas of the business.

## Commercial

### Overview

Samsung's single split unit is a smart choice for conserving both running costs and energy consumption. This economical outdoor unit employs advanced technologies to minimise waste and improve efficiency. By adopting smart inverter technology, Samsung Air Conditioner (RAC) not only offers silent operation but also provides outstanding cooling performance.

The Samsung CAC air conditioner system delivers optimal comfort, efficiency and performance with features such as:

- **World-class energy efficiency.** Decrease energy consumption by up to 50 percent with a digital inverter system featuring an economical mode.
- **Superior performance.** Weather severe temperatures dependably and maximise comfort with wide temperature allowance.

### Deliver consistent cooling with innovative operation for maximum comfort

Samsung is a global front runner in energy-efficient design, temperature control and power. Its aerodynamic blade technology increases airflow silently while adjustable air tuning customises the indoor climate for any situation.

### World-class energy efficiency

The Samsung unit boasts cutting-edge technologies to deliver stellar energy efficiency.

### Silent performance

Samsung is a global front runner in energy-efficient design, temperature control and power. Its aerodynamic blade technology increases airflow silently.
